EDUCATION

California State University, Fullerton

August 2023 - Expected Graduation: May 2025

BS, Computer Science

- Relevant Coursework: Foundations of Software Engineering, File Structures and Database Systems, Operating Systems Concepts

University of California, Merced

August 2021 - May 2023

- Relevant Coursework: Intro to Programming, Advanced Programming, Data Structures, Computer Organization and Assembly Language

PROJECTS

Barbershop Website

- Collaborated with two team members to design and develop a fully functional barbershop website for a client, incorporating Booksy for seamless appointment booking functionality.
- Deployed the website using Vercel, ensuring optimal performance and responsiveness.
- Utilized HTML, CSS & Bootstrap to give the website a visually appealing and client-friendly interface.

TV-Bot

- Created a Discord bot using JavaScript and NodeJS that outputs trending movies and TV shows.
- Implemented seamless search capabilities for a comprehensive collection of films and television series.
- Utilized the TMDB API to enhance the user experience by providing comprehensive, up-to-date details accurately.

Portfolio Website

- Coded a personal website using React and TypeScript, then deployed using Vercel.
- Designed and styled the interface using Tailwind CSS.
- Integrated advanced UI components from various component libraries to enhance the design and functionality of my portfolio site.

EXTRACURRICULARS

NeonChat

FullyHacks 2024

- Collaborated with three team members to create a Bluetooth based messaging program in Python.
- Designed and coded the website showcasing our project using HTML and CSS.
- Ensured compatibility across various devices and browsers, optimizing the website for seamless viewing and interaction.

Marketing Officer

February 2024 - Present

Association of Computing Machinery (ACM)

- Captured impactful visuals of ACM events, conveying the energy and spirit of each occasion.
- Coordinated with the marketing team to strategize and assign roles for comprehensive event coverage.
- Contributed creative ideas, leveraging photography as a storytelling tool for audience engagement within ACM.
